## SETUP CHARGES

See individual items for setup charge. Setup is per imprint/color. If order consists of multiple scents, flavors or colors, a minimum of first column pieces per variation will apply.

**REPEAT SETUP** Please reference previous purchase order number. Repeat Orders are subject to another setup charge for 1/2 original set up charge as long as there are no changes to the artwork. **NOTE:** Any changes to the artwork or a change in the product is not considered a repeat and will incur a new setup charge.

## ARTWORK

### ARTWORK OVERVIEW

We highly suggest submitting all artwork via Email as vector files with all text converted to curves or outlines. Set document color mode to CMYK and call out colors as PANTONE® PMS® if specific colors are required. When unable to send vector art, a resolution of at least 300 dpi is suggested for all gifs, jpegs, and tiffs (non-vector formats). Files should be submitted to the correct Email address (ARTWORK@SNUGZUSA.COM) to ensure no delay in processing. We are a PC-based company, but can accept files generated on a Macintosh.

**PREFERRED FILE FORMATS** AI – Adobe® Illustrator®, EPS – Encapsulated Post Script and PDF – Portable Document Format - Adobe PDF.

**NOTE:** Artwork created in another program and saved as another file extension does not guarantee acceptable artwork. (i.e. a jpeg saved in Illustrator as an .ai file does not make it a vector file.)

**ACCEPTABLE FILE FORMATS** TIFF, JPEG, GIF, PSD - Photoshop Document or Camera-Ready Art (see below).

**NOTE:** Formats above will not always be acceptable depending on the product ordered and the quality of the file.

**SUBMITTING ART** We strongly recommend submitting all artwork in vector format with all fonts converted to outlines, preferably as an Adobe Illustrator file. All colors should be called out from the PANTONE Solid Coated book. Please note that fluorescent and metallic (PANTONE C) colors in the 800's are not accurately reproducible by a CMYK printing method.

We ask for vector artwork to insure the best printing of your artwork. Non-vector artwork should have a minimum resolution of 300 dpi. Non-vector files may be unusable and may be subject to artist charges depending on their file type, quality and intended use.
